FACIALS

ENVIRON TCA PEEL

£120.00

This unique approach is a non-invasive intelligent skin peeling system developed by Dr Des Fernandes to safely and effectively help refine, revive and brighten skin.

What makes Environ's philosophy to peels so unique and TCA different is it's specific 'kind to skin' and barrier protecting approach, it is also known as 'the peel that doesn't peel. There is a 'sweet spot' where the acid will stress the keratinocytes in the skin just enough without killing them in order to stimulate the cells to release various growth factors, without stripping or irritating the skin, allowing for minimal downtime. These growth factors plump and rejuvenate skin, promoting new collagen and elastin production.
